FieldStrength is going Green: register for email version

In an effort to be more environmentally friendly, FieldStrength now offers electronic-only subscriptions. When a new FieldStrength issue is available, subscribers to the electronic version will receive an email overview. A click on an article of interest will take you to the online version of that article.

Online FieldStrength offers more:

- Image movies when relevant
- Direct links to NetForum ExamCards
- PDF versions of selected articles or the full issue
- Capability to print only the pages that interest you

To preview FieldStrength online, go to www.philips.com/fieldstrength. You can enter a new online subscription or modify your current subscription from print to electronic.

FieldStrength readers who do prefer so, can of course, still continue to receive the printed version.

Please consider the environment before printing any document.
