Do you have sleep apnea?

SleepMapper self-management system from

PHILIPS

RESPIRONICS

Menu

Take an active role in your sleep apnea therapy

SleepMapper is a mobile and web-based solution designed to help sleep apnea patients enhance their sleep therapy experience.

- See your therapy data quickly and easily through your smartphone, tablet, or computer.
- Watch videos and guides about sleep apnea and your Philips Respironics System One sleep therapy equipment.
- Have the information you need to know more about your therapy.

Could you benefit from using SleepMapper?

Do you have:

- an interest in seeing your sleep apnea therapy results?
- a desire to learn more about sleep apnea and understand how your therapy equipment works?
- a Philips Respironics System One sleep therapy device?
- a home computer that can download an SD card and has high-speed Internet connection, or a compatible* smartphone or tablet device?

Visit sleepmapper.com or talk to your homecare provider to learn more.

*Certain specifications are required:

SleepMapper.com – supported browser versions: Internet Explorer, Firefox and Google Chrome

SleepMapper Mobile App – iOS and Android

See your therapy results easily

To see results on your computer:

Use the SD card included in your System One therapy device and follow these easy steps:

- 1 Go to www.sleepmapper.com.
- 2 Create your free account.
- 3 Begin transmitting your sleep therapy data.

To see results on your mobile device:

Use a Bluetooth module** that attaches to your System One therapy device, and follow these easy steps:

- 1 Download the free SleepMapper app***.
- 2 Create your free account.
- 3 Begin transmitting your sleep therapy data.

With SleepMapper, therapy information is easy to see, simple to find, and all at your fingertips, through your smartphone, tablet, or computer.

**Available from participating homecare providers.

***Available from either the iTunes store or Google play.

**Philips Healthcare is part of
Royal Philips Electronics**
