Sleep therapy success at your patient's fingertips

Saving you time, supporting your sleep service

By giving patients greater insight into their therapy data and providing tools so that they can troubleshoot common problems themselves, DreamMapper can free up your team's time to see more new patients as well as manage those who may need extra attention.

DreamMapper has resulted in adherence success*:

22% more adherence

78% adherence rate (when using DreamMapper) | 56% adherence rate (when not using DreamMapper)

*In a retrospective review conducted by Philips Respironics of approximately 15,000 SystemOne patients, patients who used SleepMapper, which has been rebranded to DreamMapper, demonstrated 22% greater adherence to the therapy than patients who did not use SleepMapper.
**To see which therapy devices are compatible with DreamMapper, visit: www.philips.co.uk/dreammapper/compatible
***Therapy data is uploaded to the DreamMapper server via the patient's mobile device

Experience DreamMapper

DreamMapper is designed to empower patients to take ownership of their therapy while helping you support them effectively and efficiently.

Tell them about DreamMapper** — an easy-to-use mobile and web-based application inspiring more patients to succeed each and every day.

Keeping patients connected

- Options for transmitting therapy data to DreamMapper:
- DreamStation sleep therapy system with integrated Bluetooth***
 - EncoreAnywhere wireless modem
 - System One sleep therapy system Bluetooth module***
 - Philips Respironics sleep therapy system data card

DreamMapper can populate EncoreAnywhere patient records with therapy information.

Making it easy to get up and running

DreamMapper works in harmony between the easy-to-use mobile app and the intuitive DreamMapper website.

The mobile app is available in the iTunes store and Google Play store.
