

PHILIPS

Education

iPatient Cardiac CT Course

Introduction to Principles, Acquisition and Techniques

Overview

This course is intended for radiographers with an interest in coronary artery CTA. The CT user will develop knowledge of cardiac scanning, dose reduction techniques and the advanced cardiac post processing packages available on the Intellispace Portal.

Philips will offer each attendee comprehensive lectures conducted in a dynamic practical setting with interactive hands on training. This workshop will cover basic scanner functionality, cardiac protocols, injection principles, cardiac anatomy, arrhythmias and ECG editing.

CPD points can be claimed for attendance at the iPatient Cardiac CT Course

Registration

Course dates

9:00AM – 4:30PM
Wednesday & Thursday,
5th – 6th September, 2018

*Tuition Fees

\$400.00 inc GST

*Tuition fees do not include flights
or accommodation

Location

QT Gold Coast
Cloudbreak Room
7 Staghorn Avenue
Gold Coast, QLD 4217

Course agenda*

Wednesday 5 September 2018

Time	Topic
9:00AM	Technical Cardiac presentation
9:45AM	Basic CT cardiac viewer and anatomy review
10:30AM	Morning tea
11:00AM	ISP BASICS Cardiac Viewer
11:30AM	ISP Case review- Normal Anatomy Rt dominant
12:15PM	Patient preparation, Beta blocking and heart rate monitoring
12:45PM	Lunch
1:30PM	Contrast Considerations
2:15PM	Calcium Score
3:00PM	Case review
3:30PM	Afternoon Tea
3:45PM	Simulator practice and calcium score
4:30PM	Day 1 concludes

Thursday 6 September 2018

Time	Topic
9:00AM	Simulator review of exam cards scan types
9:45AM	Cardiac scanning parameters S&S HELICAL single cycle vs multi cycle
10:30AM	Morning tea
11:00AM	DOSE Modulation
11:30AM	Simulator review Dose settings
12:15PM	ECG Setup
12:45PM	Lunch
1:30PM	ECG Editing presentation
2:15PM	Review of cases on ISP Arrhythmia correction
3:00PM	ECG editing on simulator
3:30PM	Afternoon Tea
3:45PM	Cast study review
4:30PM	Course concludes
